The Voice of John

a movie premiere

This documentary will provide a forensic view into the Pro-Life movement from 1973 to date, showing the real truth regarding abortion and euthanasia from the perspective of those who know it best; the doctors, nurses, clergy, scientists and politicians who are responsible for this ruling as well as those who oppose it. You will hear testimony from those who regret their abortion, abortion survivors, former abortionists and even those who were responsible for the testimony given to the U.S. Supreme Court before the court ruled on the landmark decision of Roe vs. Wade, on this date of the 41st annual National March for Life.
