THE SALESIAN LEADERSHIP INSTITUTE
a two-year program of personal growth and executive training
within the framework of Catholic spirituality lived in the Salesian tradition

Objectives of the Institute:

- to effect a development of individuals, by fostering an awareness of personal talents and a facility for inter-personal communications
- to inspire future leadership of self and others, by developing practical skills through individual reflection, expert coaching, and group activities
- to disseminate the distinctive charism of Salesian spirituality, by providing a more in-depth education in this classic religious tradition
- to effect a transformation of culture, by enacting the spiritual and personal dynamics of the institute through leadership in campus, civic, or church organizations

Activities in the Institute:

**JUNIOR year**

**L.E.A.P. retreats (Leadership Experiential Adventure Program)** ... a three-day weekend adventure, held off-campus, during which students discover their personal profiles and develop their individual missions, all the while participating in a “ropes course” experience!

**B.E.I.T. sessions (Being Energized and Inspired Together)** ... a series of ten 90-minute meetings, held on campus, during which students work in small groups, with trained facilitators, using electronic tools and personalized workbooks, to learn a variety of skills related to understanding oneself, creating winning relationships, and leading others to a better future.

**SENIOR year**

**B.E.S.T. practices (Business Education in Skills & Techniques)** ... a series of six 90-minute workshops, held on campus, in which corporate professionals share practical “how to” ideas in terms of managing projects, conducting meetings, organizing finances, and other tasks encountered in any professional career.

**D.O.I.T. project (Discovering Opportunities & Implementing Them)** ... leading an on-campus activity or organization in a way that applies what students have learned in the Institute

Benefits of the Institute:

- *personal* – forging relationships that positively influence one’s future
- *spiritual* – seeing how faith is a key component to human happiness in any career
- *educational* – learning skills taught in the best executive training programs in the corporate world
